SCANNING TO THE CLOUD
MADE SIMPLE.

Dispatcher® Phoenix ScanTrip simplifies document scanning. So you can work smarter. And more efficiently.

It seems like every business, regardless of size, struggles with a constant influx of documents. Konica Minolta's Dispatcher Phoenix ScanTrip automates scanning, featuring workflows that allow you to securely scan, OCR, and send documents to network or desktop folders, email addresses or even your Cloud storage application of choice: Box®, Dropbox®, Microsoft OneDrive®, Google Drive, Microsoft SharePoint® and much more. This powerful solution makes digitizing paper documents and automating document delivery to user-defined or preconfigured destinations easy — letting you stay on top of document upkeep and focus on higher-value work.
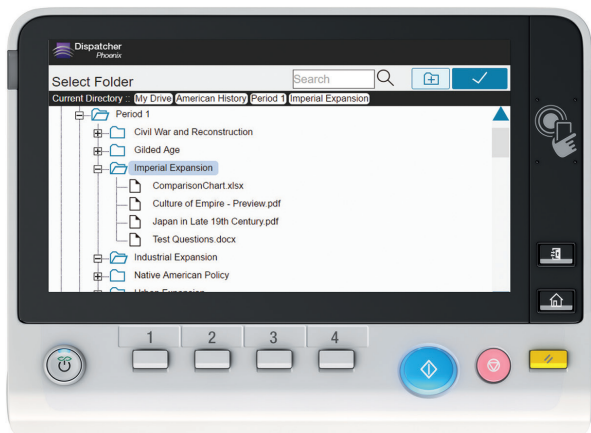

Dispatcher
Phoenix SCANTRIP

EASY-TO-USE SCAN AND OCR WORKFLOWS.
HARD-TO-MISS BENEFITS.

Save time. Boost productivity. And simplify workload.

Traditional scan workflows are time-consuming and involve repetitive work, as employees navigate a variety of menus and parameters to complete their scanning tasks. Using an intuitive interface, you can rename files, extract key information from documents via OCR (Optical Character Recognition) and ensure they are delivered securely to folders, email addresses, and the cloud. ScanTrip includes direct connectors to today's leading cloud storage applications, such as Dropbox, Box, Google Drive, Microsoft OneDrive, SharePoint, WebDAV, and much more. Dispatcher Phoenix ScanTrip provides you with the convenience and flexibility you need to drive productivity, improve accuracy and create consistency within your organization.

SCAN. CAPTURE. AND ORGANIZE. QUICKLY AND EFFECTIVELY.

SECURE DOCUMENT PROCESSING AND DELIVERY

Documents can be renamed and key information can be extracted from them via OCR zones before they are instantly routed to a defined delivery location. ScanTrip's automated processing and routing capabilities ensure that files are available when and where you need them--every time. You can select delivery options directly on the MFP panel or set your workflow to run automatically, at a date/time of your convenience.

SINGLE SIGN-ON TO THE CLOUD

Dispatcher Phoenix ScanTrip supports single sign-on to major Cloud applications such as Dropbox, Box, Microsoft OneDrive for Business and Microsoft SharePoint Online. Dispatcher Phoenix's innovative, web-based Cloud Accounts Manager Tool makes it easy for you to access Cloud applications directly from the control panel — without requiring any additional log-in.

FLEXIBLE & ADVANCED DOCUMENT CAPTURE

ScanTrip's folder browsing at the MFP provides the unique, intuitive and powerful experience you need when scanning. You can browse your directory structure to easily choose a folder to store your documents in, use a search field with type-ahead functionality to quickly filter the list of folders displayed and even create a new folder to scan into — using a visually enhanced display at the MFP.
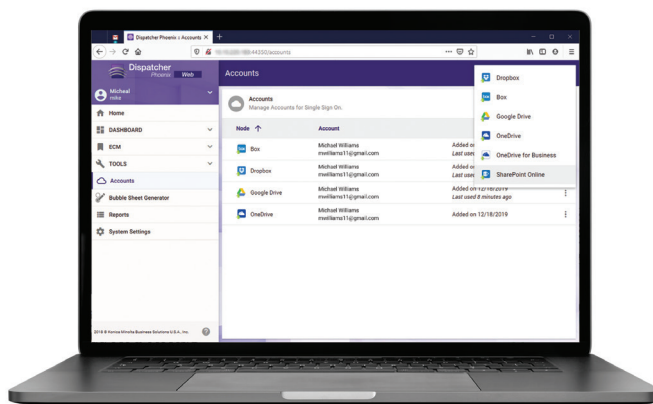

IMPROVED OUTPUT VIA OCR

With ScanTrip's advanced OCR capabilities, usable data can be automatically extracted from scanned documents before they are stored or distributed, eliminating the need for manual data entry and streamlining your business processes.

SIMPLIFIED ONBOARDING

Kick-start your scanning with a full library of preconfigured scan workflows, including Scan-to-Me, Scan-to-Home, Scan-to-OneDrive, Scan-to-Google Drive, Scan-to-Dropbox and more. Dispatcher Phoenix ScanTrip enables you to quickly and easily register your devices to get your employees scanning in minutes.

BUILT TO SUIT YOUR **BUSINESS NEEDS.**

The Dispatcher Phoenix family of automated document workflow solutions also includes:

DISPATCHER PHOENIX RELEASE2ME+
A convenient and secure entry-level, follow-you printing, OCR, and scanning solution that addresses document security challenges and simple scanning needs.

DISPATCHER PHOENIX
An advanced document processing and workflow automation solution with sophisticated tools for rules-based file distribution. To address the specific needs of our vertical market customers, optional packages are also available to be added onto the Dispatcher Phoenix license, including:

Legal: Speed up and simplify legal document processing with automated Bates stamping, redaction, connectors to document management systems and more.

Education: Advanced features for educators, including an automated bubble sheet grading solution, a web-based bubble sheet generator tool and more.

Healthcare: Advanced document workflow for processing, sharing and securing patient information, including a direct connector to OnBase® by Hyland, a secure prescription print solution and Scan-to-EHR capabilities via HL7.

Finance: Capture, process and distribute financial documents with automated file conversion, barcode recognition and more.

Government: Helps state and federal agencies manage documents with greater security and accessibility. Includes Dispatcher Phoenix's Copy Defender functionality to secure printed documents along with support for CAC/PIV authentication and Scan-to-Me/Scan-to-Home capabilities.

ECM: Manage unstructured content with powerful batch scanning and indexing capabilities. Features a Desktop workstation that connects to any high-speed, TWAIN-based scanner, along with web-based batch indexing, document verification and batch reporting tools.
